headbanging tour through the last few decades of speedmetal offering a sometimes hilarious often outrageous but highly entertaining trip with the frontman of the loudest rock band in the world the summer of 1969 was a momentous one in modern history it was a season punctuated with change apollo 11 landed on the moon thousands of young fans flocked to rock n roll festivals like woodstock and the controversial altamont freeway concert the manson family cult were on a high profile killing spree and the first uprisings that would become the stonewall riots began it was an electric summer of violent endings new beginnings and social unrest it was also the summer that a myth was born beginning with the tragic untimely death of rolling stones founder brian jones the world soon lost two more huge music stars janis joplin and jimi hendrix not only did losing these three beacons of music culture seem to signal the end of a musical era it also felt like a foreboding sign they had all died at exactly the same age all three had lost their lives at the pinnacle of their creative output and all three were exactly 27 years old people have speculated that there could be a dastardly lineage from the poisoning of blues pioneer robert johnson in 1938 through these icons of the 60s and more recently to rebel chanteuse amy winehouses death from alcohol poisoning in 2011 could it be a twisted fate that the worlds very best creative souls come to early often violent deaths at just 27 years old over time this idea began to be known as the 27 club and it has persisted in the public imagination in 27 the legend and mythology of the 27 club rock n roll icon gene simmons takes a deep dive into the life stories of these legendary figures without giving credence to the romanticized idea that being in the club is somehow a perverse privilege simmons wills us to acknowledge the extraordinary lives not the sensational deaths of the musicians and artists who left an indelible mark on the world regular bronx family and inspired by the likes of hendrix led zepellin and the kinks ace frehley first picked up his brother's guitar at the age of 12 he  
had already performed in a number of bands when in january 1973 he auditioned for an ad that read guitarist wanted with flash and balls within a  
week he was invited to join the band was kiss frehley explains how the band developed their style in the early days making their own clothes wearing  
make up and platform shoes ace himself even designed the band's double lightning bolt logo before long his persona the spaceman was born and the  
familiar kiss look established almost overnight they left behind 1 500 seater theatres in the midwest and were playing sold out stadiums around the  
world life in kiss was a whirlwind of accidents overdoses and excess ace partied with the likes of john belushi and nic nolte and enjoyed the seemingly  
endless supply of fringe benefits that came from being in one of the most successful bands in the history of rock n roll but soon problems with  
substance abuse would lead to his leaving the band in 1982 before returning for a second tenure in 1996 ace in the hole is the story of kiss but much  
more than that it's the story of a kid from the bronx who found purpose and salvation through music and rose to the top it's the story of a guy who

alone don't equal power the decisions you make once you attain a certain level of success are what separate the pretenders from the pantheon  
inspired by niccolo machiavelli's the prince simmons offers his unique take on the dynamics of power in every realm of life from the bedroom to the  
boardroom to the world of rock celebrity and social media to politics with one of a kind anecdotes from his life and career as well as stories from

every member of the simmons family including the children was slaughtered by ronald gene simmons he took the lives of 14 of his family members and two of his former co workers making it the worst
