the alfa romeo 105 series spider is one of the most admired drop head sports cars to come out of italy launched in 1966 its radical new look was not immediately welcomed as prospective buyers gradually warmed to the model enhancements were introduced including more powerful engines and higher spec body and interior fittings despite its inauspicious start production of this much admired car lasted for twenty seven years finally stopping in 1993 jim talbott and andrew brown pay homage to the 105 115 series alfa spider with over 330 photographs many specially commissioned this new book describes the alfa romeo company history including its philosophy of incorporating driver appeal into all of its products resulting in some of the most desirable vehicles of their age it details the evolution of the 105 115 series through four distinct body styles lists the technical design specifications and every major version of the spider and finally discusses the issues and challenges of finding and owning a classic spider with 340 pages and more than 500 illustrations and charts size 8 25 x 10 75 inches this is possibly the most complete workshop manual for the alfa romeo 750 101 series of automobiles it includes a reprint of the september 1958 factory workshop manual no 637 the 12 page transmission appendix from the december 1957 manual no 611 the 15 page 1962 enclosure to the shop manual technical characteristics no 854 plus the 1963 and 1964 technical characteristics publications for the 1600cc models 27 pages introduced in 1954 the initial 750 series giulietta was replaced by the 101 series giulietta in 1959 both the 750 and 101 models were powered by a 1300cc 1290cc engine the engine capacity was increased in 1962 with the introduction of a 1600cc 1570cc unit co incident with this engine update the giulietta name was changed to giulia although they still retained their original 101 series designation from 1962 onwards the updated giulietta continued to be sold under the giulia name until they were replaced by the all new 105 series giulia based models in 1965 as the predominance of the basic mechanical components of the 750 and 101 models remained unchanged during their 1954 1965 production run the original giulietta workshop manual was considered adequate and the factory supplemented it with the publication of technical characteristics booklets 1963 1964 that updated the factory manual with technical data specific to the 1600cc equipped cars timeline of the english language manuals issued by the alfa factory for the 750 101 series giulietta and giulia models the first english language workshop manual part no 577 600 copies was issued in may 1957 and it consisted of 14 individual booklets in a ring binder in addition a separate booklet numbered 15 was added a little later that was identified as special repair data for the sprint veloce spider and super spider in december 1957 alfa issued 1000 copies of a softbound workshop manual part no 611 that combined the booklets from the may 1957 publication into a single volume it should be noted that booklet 14 special tools and equipment was omitted from this edition and that the images are of poor quality in september 1958 another 1000 copies of a softbound single volume manual part no 637 was issued and the images in this manual are almost photo quality this edition also included the previously missing special tools section however for some unknown reason the 12 page appendix to the transmission section from the december 1957 edition was omitted this same part number 637 was reprinted by the factory in september 1961 1000 copies finally in november 1962 alfa issued 2000 copies of a 15 page booklet enclosure to the shop manual technical characteristics part no 854 this booklet expanded the technical data for the 1300cc models that was previously included in technical specifications section of both the ring bound and softbound workshop manuals however in 1962 the giulietta sport models sprint sprint special and spider were fitted with the new 1600cc engine and the giulietta series 101 name was dropped but they continued to be sold under the giulia name as 101 series vehicles until they were replaced by the all new 105 series giulia based models in 1965 consequently for the sake of completeness the 20 page october 1963 technical characteristics booklet part no 955 1000 copies for the 1600cc giulia ti spider sprint and the 7 page october 1964 technical characteristics for the giulia spider veloce should be a required addition to this list of manuals for the 750 and 101 series models all of alfa s great sportscars including the convertibles and coupes come vividly to life from the pre war 6c to today s spider and gtv including the giulietta 750 and giulia 101 andrea sparrow s informative text tells the alfa romeo story and details the individual models david sparrow s award winning color photographs deliver a stylish appreciation for alfa s world renowned sports cars a colorful celebration when you think of alfa romeo it is the italian s company s sports cars above all that fire the imagination since they encapsulate everything that is great about the brand in successive dynasties of fixed roof coupés and convertible spiders alfa romeo has built one of the greatest canons of work of any car maker in the world the appeal of alfa romeo s sports cars is of course partly down to their aesthetic eminence a host of talented designers created their best work for alfa giorgetto giugiaro s giulia sprint gt franco scaglione s 33 stradale and pininfarina s duetto spider to name but a few but style was only ever a part of the story drivers love alfa romeo coupés and spiders too because technically speaking these cars were in a class of their own alfa romeo consistently employed elements from much more expensive machinery democratising them into its sports cars one can cite gearboxes with multiple ratios all round disc brakes lightweight aluminium engines perfectly balanced weight distribution and many more alfa romeo coupes and spider in detail since 1945 celebrates alfa romeo s most iconic sporting machinery from the earliest sports cars of its formative years right up to the present day every alfa coupé and spider is described in detail included are exotics like the 6c 2500 freccia d oro montreal and 8c
