newsstands everywhere visit jdjungle.com analysis the contribution made by the ukcc to the development of the nursing profession in this country over the last thirty years it details the key issues the council grappled with when the facts don t add up in his surf buddy s bizarre death forensic consultant and daddy to be thaddeus hanlon investigates volunteering to go undercover to pick up where best friend rafi silva left off in a secret probe of the u s gold stockpile every last bullion bar rafi s spunky fiancée bri de la guerra has suspicions of her own and soon joins thad on the hunt for answers together the two amateur sleuths delve deep stumbling onto a financial a stock alypse in the making triggering a brutal manhunt along the eastern seaboard meant to silence anyone looking to set the ledger straight microfinance is the method whereby financial services and credit is made available to the economically active but low income people of developiong countries this book focusses on three key aspects of the phenomenon 1 the shift from government and donor subsidized credit delivery systems to self sufficient sustainable microfinance institutions 2 the results on the ground on the way in which microfinance is helps people expand and diversify their enterprises increase their incomes raise their

living standards and those of their families and boost their self confidence 3 the theoretical frameworks that had previously impeded the microfinance revolution with suggestions for their improvement a supply chain comprises different actors existing in different countries including suppliers producers and customers clothes are supplied from asia to all other regions most coffee beans are supplied from south america and cocoa is produced in africa protecting the rights of people who produce goods in different countries is essential in fact according to this evolutionary law companies need to identify analyze and prioritize the risks in their supply chains and new policies must be established based on these results new measures are taken to prevent or minimize violations of human rights and damage to the environment companies also need to set up grievance channels for people in the supply chains for regular reporting on supply chain practices the german supply chain act gives consumers the security that companies are managed based on fair production and many similar legislations are likely to follow in other nations businesses around the world must prepare for these types of policies to impact their own supply chain management strategy before they are enforced if they wish to avoid revenue impacting delays government impact on sustainable and responsible supply chain management is edited by atour taghipour with about a decade of experience as a director in automobile and high tech industries provides

new and innovative ways to integrate social and environmental analysis into global value chains and adapt the law that regulates corporate responsibility for the observance of sustainability and human rights in the supply chain this book is ideal for professionals and researchers working in governmental and private organizations in supply chain management operations management logistics and operations research moreover the book provides insights and support for executives in managing expertise knowledge information and organizational development in different work communities and environments this book scrutinizes the role of hong kong in the expansive and contested vision of china s belt and road initiative bri in two main parts it first discusses the defining features of the bri and the evolving expectations of the role of hong kong in the bri from the perspectives of policy makers and the professional sectors of accountancy finance and the law the second part contemplates the potential opportunities for hong kong from the perspectives of recipient countries sri lanka vietnam cambodia and myanmar utilizing an action research approach and engaging the views of a broad spectrum of actors the authors observe the critical role of agency and innovations in a context of institutional contradictions the impact of bri governance structure for the deficits in international participation gaps between grand state visions and commercial interests and the salience of effective

communication in navigating complex policy initiatives taking these together unpacks the complex processes shaping hong kong s participation and role in the bri this book will appeal to students and researchers interested in the bri and hong kong in the contexts of institutional contradictions agency innovations and political dynamics as well as sustainable development in the aftermath of the grenfell tower tragedy this new book provides thought provoking commentary on the nature of the relationship between society the prevailing economic system and professionalism in the built environment it addresses the changing responsibilities of professionals and in particular their obligation to act in the wider public interest it is both an introduction to and an examination of professionalism and professional bodies in the sector including a view of the future of professionalism and the organisations serving it simon foxell outlines the history of professionalism in the sector comparing and contrasting the development of the three major historic professions working in the construction industry civil engineering architecture and surveying he examines how their systems have developed over time up to the current period dominated by large professional services firms and looks at some options for the future whilst asking difficult questions about ethics training education public trust and expectation from within and outside the industry the book concludes with a six point plan to help if not ensure that the

professions remain an effective and essential part of both society and the economy a part that allows the system to operate smoothly and easily but also fairly and to the benefit of all essential reading for built environment professionals and students doing the professional studies elements of their training or in the process of applying for chartership or registration the issues and lessons are applicable across all building professions determinism is roughly the thesis that facts about the past and the laws of nature entail all truths a venerable age old dilemma concerning responsibility distils to this if either determinism is true or it is not true we lack responsibility grounding control either determinism is true or it is not true so we lack responsibility grounding control deprived of such control no one is ever morally responsible for anything a number of the freshly minted essays in this collection address aspects of this dilemma responding to the horn that determinism undermines the freedom that responsibility or moral obligation requires the freedom to do otherwise some papers in this collection debate the merits of frankfurt style examples that purport to show that one can be responsible despite lacking alternatives responding to the horn that indeterminism implies luck or randomness other papers discuss the strengths or shortcomings of libertarian free will or control also included in this collection are essays on the freedom requirements of moral obligation forgiveness

and free will a desert free conception of free will and vicarious legal and moral responsibility the authors of the essays in this volume are philosophers who have made significant contributions to debates in free will moral responsibility moral obligation the reactive attitudes philosophy of action and philosophical psychology and include john martin fischer robert kane michael mckenna alfred mele and derk pereboom annual publication discussing new trends in brief therapy topics include therapist client relationship hypnotherapy and dying ethics and hypnosis and substance abuse this auditing casebook stresses the people aspect of independent audits and its purpose is to allow the reader to learn from cases based upon problem audits individuals are also exposed to the work environment of auditors by studying these cases the cases are organized into eight sections and vary in length from three to thirty pages the belt and road initiative bri is a major development strategy launched by the chinese government with the goal of fostering economic cooperation among countries along the proposed routes the bri marks a new era in which multinational enterprises mnes from developing countries are beginning to take primary responsibility for driving global flows of outward foreign direct investment ofdi among hotly debated topics on how the bri is reshaping the global competitive landscape corporate social responsibility csr reporting practices of chinese mnes along the belt and road are noteworthy but relatively less

discussed this book investigates how do chinese mnes engage with define and implement csr under such an enormous cooperative initiative through analyzing their csr reporting practices in the bri host countries besides this opportunities and challenges of the bri investments for sustainable development in host countries are examined the book provides critical insights into the current institutional architecture for csr reporting to promote sustainable development it also highlights the importance of stakeholders capacities to sustain enact and execute strict csr disclosure laws and regulations the findings mark important implications particularly in view of growing concerns about international reputational damage of unsustainable ofdi the book is suitable for researchers undergraduate and postgraduate students in the fields of csr sustainability development accounting and international business as well as others who are keen on the latest development of the bri in relation to other developing and least developed countries
