Scientific Information Services of the National Cancer Institute 1992 the past decade has seen a major structural shift in broadcasting in southeast asia with the development of digital satellite and cable broadcasting this shift has impacted upon some of the most information sensitive governments in the world singapore malaysia and until recently indonesia atkins traces this development in five countries showing that the challenge to authoritarian regimes anticipated by modern theorists as a result of the globalization of news and information is not materializing instead a new commercial

elite has arisen southeast asia's own mini moguls who act as gatekeepers for state interests as partners to global media companies
